Paula Kavanagh Newborn photography

Babies are newborns for what seems like a second. While you spend the first few weeks staring lovingly at your new baby, they change right in front of your eyes.
The studio experience is very calm, slow and gentle. Your baby runs the show, so it involves a lot quiet, gentle soothing to get the best poses.
It is best to get your baby to me before they are 14 days new

Studio session (allow 3 hours) includes 2, 5 x 7 prints **150**
